Mettur , Salem

EXPERTISE

- Mobile Automation
- Web Automation
- Front-end Web Development
- Web Designing
- Agile Methodology
- Performance Testing

SKILLS

- JavaScript
- Selenium , Selenium Grid
- WebDriver IO
- Appium
- JIRA
- Jenkins
- Git/GitHub
- ELK Stack

EDUCATION

BE Computer Science

Kongu Engineering College

2014 - 2017

Perundurai

CERTIFICATION

- Infosys Certified JavaScript Developer
- Infosys Certified Media Professional
- Algorithm & Data Structures in JS.

SUMMARY

I am an enthusiastic learner of Javascript with prior experience as an automation engineer in web and mobile automation. I possess strong analytical and problem-solving skills and a keen eye for detail, enabling me to identify and troubleshoot issues quickly and efficiently. I can work independently or collaboratively in a fast-paced environment, delivering high-quality results within tight deadlines.

WORK EXPERIENCE

Technology Analyst

Infosys Limited

2021 - 2023

- I am an experienced automation engineer with a strong background in mobile automation and Selenium Grid. I have successfully designed and implemented automated testing frameworks for various mobile platforms, ensuring efficient and reliable testing processes.
- My expertise in Selenium Grid has allowed me to execute tests across multiple devices and platforms simultaneously, saving time and effort. I have a deep understanding of mobile automation frameworks such as Appium and have effectively utilized them to test applications on different operating systems and devices.
- Throughout my career, I have consistently delivered high-quality results by identifying and resolving issues in mobile applications across various platforms
- In addition to my technical skills, I am a collaborative team player with excellent communication and problem-solving abilities. I have effectively worked with cross-functional teams, including developers and stakeholders, to ensure the smooth execution of mobile automation projects.

Senior System Engineer

Infosys Limited

2019-2021

- I have a deep understanding of web automation frameworks such as Selenium and have effectively utilized them to automate web-based tests across different browsers and platforms. I am well-versed in writing test scripts using programming language such as JavaScript, and have extensive experience in creating robust and scalable automation solutions for web applications.
- Collaboration and version control are essential in any development process, and I have extensive experience in working with integrated teams and utilizing Git for code management. I have effectively collaborated with testers, and stakeholders to ensure seamless integration and synchronization of code changes.
- I am a proactive problem solver with excellent communication and teamwork skills. Throughout my career, I have consistently delivered high-quality results by identifying and resolving issues in web applications. I am constantly staying updated with the latest automation trends and technologies to enhance my skills and deliver efficient and reliable automation solutions.

Systems Engineer

Infosys Limited

2017-2019

- I am an experienced regression tester skilled in manual and automated testing techniques. With a strong background in ensuring software quality and reliability, I possess excellent problem-solving and analytical abilities. I have collaborated effectively with cross-functional teams and possess excellent communication skills.
